EXECUTIVE SUMMARY

The City of Frisco receives Community Development Block Grant (CDBG) funds each year from the federal government through the U.S. Department of Housing and Urban Development (HUD). The Consolidated Annual Performance and Evaluation Report (CAPER) is designed to report on the progress in carrying out the Annual Action Plan. The CAPER is also designed to provide the jurisdiction an opportunity to assess its annual performance in relationship to meeting its overall Consolidated Plan priorities and objectives and to discuss what actions or changes it contemplates as a result of its annual performance. This CAPER reports the accomplishments of the fourth full year of the CDBG program, October 1, 2008 – September 30, 2009.

Some highlights of the PY2008 CAPER include:

Agency (Subrecipient)	Frisco Residents Assisted

Collin County Committee on Aging	138 persons
Hope's Door	2375 persons
Boys and Girls Clubs of Collin County	447 persons/1 facility
City of Frisco Housing Rehabilitation	21 persons/7 units

In addition to the agencies listed above, the North Collin County Habitat for Humanity completed its' first home in Frisco, and acquired two more lots for affordable housing construction. The City of Frisco expended \$51,105.00 in administration and planning funds to administer the CDBG program.

I. Summary of Resources and Distribution of Funds

HOUSING OBJECTIVES – 24 CFR 91.215(b)
--

Objective 1: Preservation of existing affordable housing stock

- owner-occupied rehab programs in target areas; and
- in support of preserving existing affordable rental housing

The city's goal was to assist 4 owner-occupied housing units with rehabilitation assistance and this goal was accomplished. A total of \$174,154.42 was disbursed. This project is ongoing and these funds will remain obligated in PY2009.

Objective 2: Further development of workforce housing opportunities for Frisco's low and moderate income families

North Collin County Habitat for Humanity completed its' first home in Frisco in PY 2008 for a family of four. In addition, the agency purchased two lots for construction of affordable homes in Frisco.

During PY 2008, the City of Frisco granted zero (0) loans for First-Time Homebuyer Down Payment Assistance activity. It has been difficult to qualify applicants for homes because of the following obstacles: low income requirements; median value of a home in Frisco (2006) was \$230,100; and only 5% of homes were built before 1980.

In an effort to increase affordable housing in the City, The City of Frisco entered into a partnership with Inclusive Communities Project, ICP, to be a conduit for low interest loans for developers who are willing to develop affordable multi-family rental housing using the Texas Department of Housing and Community Affairs (TDHCA) Low Income Housing Tax Credit Program.

Objective 3: Development of housing opportunities for low-income seniors.

No projects were completed with this objective in PY 2008.

Objective 4: Support for expansion of the capacity of the Housing Authority to address a broad spectrum of housing issues for low and moderate income families.

In PY2008, the Frisco Housing Authority was awarded \$68,053.00 in CDBG-R funds to replace electrical panels in 20 public housing units and replace HVAC systems in the same units. The project has not yet been awarded to a contractor.

HOMELESS OBJECTIVES

Objective 1: Continue to support existing transitional homeless support services in the community.

Objective 2: Expand the capacity of support services, counseling programs and career development to insulate Frisco residents from homelessness.

During PY2008, the City of Frisco funded two public service projects providing services to the homeless and/or persons on the verge of becoming homelessness:

Agency (Subrecipient)	Amount Expended in PY2008	Frisco Residents Assisted
Frisco Family Services Center	\$29,835.03	981 persons assisted
Hope's Door	\$2,280.00	2375 persons assisted

Frisco Family Services Center -- \$29,835.03 (PY 2008 - \$29,209; PY 2006 - \$626.03)

CDBG funds were used to partially fund the salary of a Bilingual Social Worker working in the BASIC program which provides emergency food, clothing, and rent/utility assistance to prevent homelessness. PY 2006 funds of \$626.03 were reallocated from CITY House. City House relinquished their award.

Hope's Door -- \$2,280.00

In this program, CDBG funds were used to pay partial rent and utility costs of the program office that provide Victim Outreach and Community Education services for domestic Violence Victims.

Other efforts to provide solutions for the homeless include participating in the Collin County Homeless Coalition, a homeless coalition working to end chronic homelessness in Collin County. This coalition comprised of cities and homeless service providers in Collin County developed *Homeward Bound: A Plan to End Chronic Homelessness in Collin County*, in response to HUD's Continuum of Care Program. In May 2005, the City of Frisco City Council adopted the Homeward Bound Plan by resolution and incorporated this plan as a part of the PY 2005-2009 Consolidated Plan.

On the regional level, the Grants and Housing Coordinator participates as a member of the Independent Review Committee of the Metro Dallas Homeless Alliance. This organization prepares and submits the Continuum of Care grant for the Dallas Metroplex.

COMMUNITY DEVELOPMENT OBJECTIVES

Objective 1: Focus on development of community facilities, public improvements, public services and economic development

- *In target areas*
- *Directly to low and moderate income families*

During PY 2007, the Boys and Girls Clubs of Collin County, Inc. was awarded \$60,000.00 to refurbish a large facility to serve as a new home for the Boys and Girls Clubs of Collin County. The facility is leased from the city for 25 years which can be extended for two (2) additional five (5) year terms. The project has expended \$60,000.00 and the project was completed in PY 2008.

The first clients walked through the new doors on December 1, 2008. In order to compile accurate beneficiary data, the agency will be monitored a total of four times over the course of the year. In PY 2008, the agency was monitored on three occasions. The final monitoring will be completed in December of 2009, at which time the agency will have been monitored for 1 year after the opening of the facility.

Objective 2: Support Public Services to the maximum allowable cap (15%)

A goal of this Consolidated Plan is to maximize the available resources to support and enhance the capacity of the social service network which serves the citizens of Frisco. As a result, the City is committed to committing the maximum allowable amount of the

CDBG allocation to fund social service agencies in the community. The following agencies operated public service programs in PY 2008:

Agency (Subrecipient)	Amount Expended in PY2008	Frisco Residents Assisted
Frisco Family Services Center	\$29,835.03	981 persons assisted
Hope's Door	\$2,280.00	2375 persons assisted
Collin County Committee on Aging	\$6,839.00	138 persons assisted

The agencies in the Table list their accomplishments in other objectives. In addition to the \$38,328.00 of PY2008 public service funds expended, an extra \$626.03 of PY 2006 funds was reallocated to and expended by Frisco Family Services Center.

Objective 3: Provide for infrastructure improvements in target areas that cannot easily be funded with other funding sources.

No projects were completed with this objective in PY 2008.

NON-HOMELESS SPECIAL NEEDS OBJECTIVES

Objective 1: Connect housing resources for the low-income elderly and disabled.

While different resources such as LIHTC and Section 202 funding are still available at the federal level, barriers such as the high cost of land in Frisco have limited the ability of both private developers and Frisco Housing Authority from successfully developing a property designed to serve extremely low-income seniors. No projects were undertaken with this objective in PY 2008.

Objective 2: Support, through public service funding, support services and programs for special needs populations.

Collin County Committee on Aging served the special needs population of the elderly by serving 92 senior citizens meals at the Friendship Café and 46 senior citizens home delivered meals while Hope's Door provided services to 2375 domestic violence victims.

B. Affirmatively Furthering Fair Housing

A general analysis of impediments to fair housing was conducted during development of the Consolidated Plan in PY2005, and will be conducted this program year for the next Consolidated Plan.

Affordable housing is one of the major barriers to fair housing. By maintaining and increasing the supply of affordable housing, there should be a greater opportunity for the community to become more diversified. In PY2008, the City of Frisco operated the

CDBG Housing Rehabilitation Program to directly further fair housing by making funds available to low-moderate income households to rehabilitate homes. Other impediments to fair housing include limited choices and community support. The City of Frisco through its' multi-family rental property code program seeks to support the community to ensure that all housing is safe, decent, and available to all people.

North Collin County Habitat for Humanity completed its' first home in Frisco in PY 2008 for a family of four. In addition, the agency purchased two lots for construction of affordable homes in Frisco.

During this program year, the city worked with Inclusive Communities Project (ICP) to increase the amount of affordable housing in Frisco by forming a partnership to develop multi-family rental dwelling units for low income persons. ICP will invest up to \$4,000,000 in the project to provide either grants or low interest loans to developers. This program will continue into PY2009 and future program years.

In support of its efforts to affirmatively further Fair Housing Choice, the Planning Department acts as a resource for fair housing complaints. Over the past year, staff has not received any specific fair housing complaints. The City remains active in attending related training. Concepts learned in training and interactions with the community contribute to a successful move toward affirmatively furthering Fair Housing.

In an effort to inform the public concerning Fair Housing issues, an advertisement concerning Fair Housing and contact information was placed in the local newspaper, *The Frisco Enterprise*, and ran on February 6, 2009; February 13, 2009; and February 20, 2009.

C. Affordable Housing

As the City of Frisco rapidly grows and continues to provide strong amenities such as highly rated schools and recreational facilities. The major barrier to affordable housing has become a limited supply of affordable housing combined with high land and construction costs in the new housing market. Since only 5% of the current housing stock was built before 1980, very few low cost homes are for sale in Frisco. What homes are available at lower prices are typically older and in poor condition and/or sell very quickly.

Development costs also discourage the construction of a sufficient number of lower priced homes. The current housing market, combined with City land use regulations and impact fees for residential development, make new affordable housing difficult. These fees are necessary to help pay for the infrastructure costs of the fast growing city. However, such fees can also contribute to a lack of interest by most developers and builders to construct lower priced housing. Additionally, limited multifamily dwellings are being developed that would be considered affordably priced housing.

As has been previously stated, the city is working with Inclusive Communities Project

(ICP) to increase the amount of affordable housing in Frisco by developing housing tax credit multifamily rental dwelling units for low income persons. ICP will invest up to \$4,000,000 in the project to provide either grants or low interest loans to developers.

The City of Frisco works to promote the acceptance of affordable housing and current housing options in the community and continues efforts to maintain a decent supply of affordable housing through the CDBG program. In this program year, seven (7) homes received assistance through the Housing Rehabilitation program. The City does not have any housing rehabilitation programs to serve renters at this time. The home buyer assistance program offered with City resources held five (5) Homebuyer Education Workshops. In addition, the City has developed an incentive program to encourage home owners to invest their personal resources in older historic homes in the Historic Downtown neighborhood. One of the goals of this program is to preserve the existing housing as a source of safe and decent affordable housing.

Addressing worst-case needs

The City passed a multifamily ordinance in PY2007 in which owners of multifamily complexes will be required to register with the City. The City inspects the property on an annual basis. This process is an effort in early detection of structure problems. Owners are required to keep their property up to standard or face fines. One of the subrecipients, Frisco Family Services Center provides financial assistance to clients and may help relocate a family that is in substandard rental property.

Addressing the needs of persons with disabilities

The City of Frisco municipal center was built in 2006. It is 100% ADA compatible and accessible to the disabled. As far as transportation for the disabled, the Collin County Area Rapid Transit agency provides low cost transportation for the elderly, low income persons, and disabled persons as well as the general population. Program staff for the Housing Rehabilitation program interview disabled applicants in their home. Home repairs and enhancements for the disabled may be completed through the Housing Rehabilitation Program.

D. Continuum of Care

Locally, the City has primarily addressed the needs of the homeless through support of subrecipients such as Frisco Family Services, an emergency assistance agency providing rental and utility assistance to prevent homelessness; Hope's Door, the domestic violence shelter. The Samaritan Inn, the only homeless shelter in Collin County, was granted City general funds to provide for the needs of the homeless. The City Council adopted the *Plan to End Chronic Homelessness in Collin County* which was a project of the Collin County Homeless Coalition, a regional organization. In collaboration with Metro Homeless Alliance, the Collin County Homeless Coalition promotes agencies that serve the homeless including LifePath and Hope's Door through the annual submission of the Continuum of Care SuperNOFA. On the regional level, the Grants and Housing Coordinator participate in the Independent Review Committee of the Metro Dallas Homeless Alliance. This organization prepares and submits the Continuum of Care grant for the Dallas Metroplex area.

E. Other Actions

During the 2008 CDBG program year, the City of Frisco took a number of other actions related to its Consolidated Plan objectives, described in the following text.

Addressing Obstacles to meeting underserved needs – In 2006, the City of Frisco recognized the obstacles of meeting underserved needs in the City and decided to create a General Fund Social Service Grant which provides funding to social service agencies serving the underserved. The grant receives \$1 per capita on an annual basis. For instance, one of the agencies funded by the City of Frisco General Fund Social Service Grant is Frisco Children's Clinic. This agency treats sick children one night a week. This agency is only three years old and is developing capacity. It does not have the staff needed for CDBG record-keeping, but provides a valuable service to the community.

Foster and maintain affordable housing – Through the Housing Rehabilitation Program, the city fosters and maintains affordable housing. Another program fostering affordable housing is the CDBG Down Payment Assistance Program. In PY 2008, North Collin County Habitat for Humanity completed its' first home in Frisco. In addition, the agency purchased two lots for construction of affordable homes in Frisco.

Eliminate barriers to affordable housing –By marketing the Housing Rehabilitation and Down Payment Assistance through such avenues as the utility bill, local newspaper, cable TV, community fairs, and walking neighborhoods delivering flyers, the city hopes to reach citizens who could benefit from these programs. The efforts cited in the previous paragraph also seek to eliminate barriers to affordable housing.

Institutional Gaps -- In an effort to eliminate gaps in institutional structures, the City remains actively involved with outside agencies and regional governmental entities. The City coordinates with public service agencies and surrounding communities to address public service needs related to housing activities and the underserved. The City participates with Frisco Housing Authority, Frisco Family Services Center, United Way of Metropolitan Dallas, Collin County Services Association and the Collin County Homeless Coalition to maximize resources for the provision of services to the homeless and other at risk low-income households.

Public Housing and Resident Initiatives – In PY2008, the Frisco Housing Authority was awarded \$68,053.00 in City of Frisco CDBG-R funds to replace electrical panels in 20 public housing units and replace HVAC systems in the same units. The project will be completed in PY 2009.

Reducing Lead-based paint Hazards -- The City of Frisco has had no reported incidents of lead contamination related to the use of lead-based paint and its housing stock. This is mostly due to the relatively young age of the housing stock of which only about 1227 units of the current housing stock was built prior to 1978.

All homes built prior to 1978 funded with the City of Frisco Down Payment Assistance program funds are visually inspected for Lead-based paint prior to funding. Also, all

CDBG funded housing rehabilitation projects include a lead based paint assessment and/or inspection as required by 24 CFR Part 35. The owner-occupied housing rehabilitation program will continue into the fifth year CDBG.

In order to reduce and abate lead-based paint hazards, the City provides information and technical assistance to households receiving assistance under both the Owner-Occupied Housing Rehabilitation program as well as the City of Frisco Down Payment Assistance Program. The City reduced lead-based paint hazards in two (2) housing rehabilitation projects in PY2008.

Compliance and Monitoring -- The standards and procedures followed by CDBG staff to monitor activities include: (1) a schedule of rehab activities, (2) a schedule of first-time homebuyer activities, and (3) a schedule of administrative activities. These schedules are reviewed by staff monthly and presented to the Housing Trust Fund Board annually. Goals and objectives of the annual Action Plan are reviewed quarterly and steps are taken to try to meet goals and objectives. Some challenges such as the economy are not in the power of the City to remedy. In light of this fact, the City operates in a dynamic external environment. Expenditures are reviewed monthly with the City of Frisco Finance Department staff to insure the timeliness of expenditures. Housing Codes and on-site inspections are performed by the CDBG Housing Rehabilitation Inspector as needed according to the activity schedules above. The CDBG program funds a rehabilitation inspector.

All subrecipients who receive City of Frisco Community Development Block Grant funds attend a pre-grant training focusing on policies and procedures in relation to activity eligibility, reporting requirements, and performance measures. Each subrecipient signs a contract which specifies the activity that is being funded and the subsequent requirements and remedies.

Quarterly, the subrecipients are required to submit financial and program documentation to the City of Frisco. This is done to ensure the timeliness of expenditures. The documentation which includes: beneficiary data, and invoices with supporting documents, such as pay records, counseling logs and rent and utility receipts is reviewed by the Grants and Housing Coordinator. If the invoice is approved by the Grants and Housing Coordinator, it is submitted to the Finance Staff person responsible for the Community Development Block Grant compliance.

Technical assistance is given to the subrecipients throughout the program year as needed. In addition, the subrecipients receive a monitoring visit at least once during the funding year to insure that the use of Community Development Block Grant funds is consistent with the contractual commitments made in the subrecipient agreement and with overall Community Development Block Grant program requirements.

Upon completion of their grant, the subrecipients receive another on-site visit from City of Frisco staff to review financial documents, records and contracts, perform onsite inspections, review specific client files, and to discuss with the agency the specific

accomplishments achieved as a result of the City of Frisco Community Development Block Grant funding.

Anti-Poverty Strategies -- The City is supporting several agencies actively working on poverty issues. The City Council awarded a City of Frisco General Fund Social Service Grant in PY2008 to the Frisco Education Foundation to provide college scholarships to low/moderate income graduating seniors. Armed with an education, these students have the opportunity to help their families break out of poverty. Another City of Frisco General Fund Social Service Grant award agency, Frisco Family Services Center works with families to educate them concerning budgeting and getting a job. In addition, Frisco Family Services center has begun this year to give college scholarships to students in low income families. Frisco Housing Authority is working with families to help them to break the cycle of poverty. The Samaritan Inn, a homeless shelter, works with families to help them become self-sufficient.

The City envisions continuing to support programs that expand antipoverty programs for both lower income families as well as to families which may be threatened with poverty through homeless prevention strategies.

F. Leveraging Resources

The City of Frisco is able to provide funding to public service agencies that is used as leverage for obtaining additional funding. In PY 2008, the following funding was leveraged in the awarding of the City of Frisco CDBG funds.

Program	CDBG Funds Awarded	Funds Leveraged	Total Invested in Need
Collin County Committee on Aging	\$6,839.00	\$87,423.92	\$41,973.97
Frisco Family Services	\$29,835.03	\$12,791.00	\$49,200.00
Hope's Door	\$2,280.00	\$139,690.00	\$176,341.00

G. Citizen Comments

The City of Frisco continues to follow the Citizen Participation Plan established for all CDBG activities. A notice was published in the local newspaper announcing the availability of the PY 2008 CAPER for public examination and citizen comment. The public review period began on November 13, 2009 and ran through December 15, 2009. The CAPER document was available on the City's website and at City Hall. No public comments were received during the public comment period. An advertised Public Hearing was held on December 9, 2009 by the Housing Trust Fund Board. No one provided comments at the Public Hearing.
